

M5 Junction 25 Improvements Scheme Project Newsletter: November 2019

Scheme Update

Toneway

Works to widen the Toneway continue. Now the kerbing has been installed, we can focus on rebuilding the grass verge which will continue to be reprofiled until the next lane switch.

This week we have laid the ducting for Vodafone, the street lighting and traffic signals.

The new road surface for the Toneway outbound will be laid next week.

Work has also started to clear the verges on the Toneway inbound and the east inner gyratory.

Link Road

All piling works for the new Blackbrook Bridge have been completed.

These were then load and integrity tested before 60m³ of structural concrete was poured earlier this week

The next step will be the construction of the bridge abutments. Meanwhile, the bridge beams are being constructed off site ready for delivery to site next year

Construction of the final flood alleviation pond is also now underway

M5 Junction 25 Improvement Scheme – November 2019 – Continued

Roundabout

You may have seen excavators and activity within the Junction 25 roundabout in recent days. This work is to install attenuation tanks as part of improvements to the drainage system. The tanks will provide 105m³ of storage to reduce the risk of overloading during heavy rain. Further tanks will be installed next week.

Now open on Saturdays

Don't forget the Gateway Park & Ride, which is accessed from the A358, remains fully open to the public whilst our work is being carried out.

The service is also now operating on Saturdays. Times and further details about the service can be found [HERE](#).

Public Information Centre

If you have any questions about our work please come along to our weekly Public Information Centre, which is based in the Gateway Park & Ride from 13:00 – 15:00 every Tuesday.
