

## M5 Junction 25 Improvements Scheme Project Newsletter: October 2019

### Scheme Update

---

#### Toneway

The Toneway's road layout switched successfully and the new road which was the central reservation is now being used whilst further works are carried out on other sections of the carriageway.

We have broken out the existing road and removed around 1,000 tonnes of concrete from the outbound lanes. Materials from this will be reused in another part of the project at a later date.

Within the next two weeks the new drainage system will be installed.

We'll also be installing 317 metres of new kerbing – planned for 2<sup>nd</sup> week of November.

---

#### Link Road

The piling for the new Blackbrook Bridge is progressing well and has reached 50% completion on the north side with works also underway on the south side. Once the piling is complete, works will start to construct the bridge support for the road.

We've now completed all the drainage works we can near to the park and ride site. Works will resume in this area once the new Toneway layout is completed.

## M5 Junction 25 Improvement Scheme – October 2019 – Continued

All ecological surveys have now been completed and vegetation clearance has commenced which will allow us to install the culvert over Broughton Brook.

### Open as Usual

Don't forget the Gateway Park & Ride, which is accessed from the A358, remains fully open to the public whilst our work is being carried out.
